

Stormwater Project Manager

City of South Burlington, VT

JOIN OUR TEAM— The City of South Burlington is seeking a dynamic professional to assist in managing the City's stormwater projects and utility. Come contribute to the City's sustainable development!

WHAT YOU WILL DO: As the Stormwater Project Manager, you will:

- Develop and manage stormwater capital improvement projects to align with the City's capital improvement plan.
- Provide guidance and oversight during construction consulting with project engineers.
- Inspect and maintain stormwater infrastructure, recommending improvements and maintenance.

WHAT WE'RE LOOKING FOR: Bachelor's in relevant field (environmental science, engineering, or related) + 2 years' experience, as well as a valid Vermont driver's license.

SALARY RANGE: \$69,284.80 to \$73,528.00, annually.

APPLY NOW: Please submit your on-line application, resume and cover letter by March 10th, 2025. <https://www.governmentjobs.com/careers/southburlington>
