Tuesday, March 24, 2020 - St. Albans Town Garage, 942 Brigham Road, St. Albans, VT

Tuesday, September 8, 2020 - VTrans Dummerston Office, 870 US Route 5, Dummerston, VT

Vermont Local Roads Program | VTrans Training Center | 1716 US Route 302 | Berlin, VT 05633-5001

## Instructor

**Todd Eaton** - VT Local Roads Technical Assistance & Training Specialist

*Todd has nearly 20 years of experience in various disciplines of construction including 9+ years in heavy highway construction supervision, inspection, and design of maintenance projects and traffic safety plans. Safety inspection and compliance has always been his focus and expectation throughout Todd's career. He also holds several professional certifications including Northeast Transportation Technician Certification Program (NETTCP), American Traffic Safety Services Association (ATSSA), and Occupational Safety and Health Administration (OSHA).*

## About

This course will cover the basic concerns in roadway design, construction, and maintenance with practical information that Vermont towns can implement immediately. The course will include the basic elements of a well-constructed road, assessment of surface damage and causes, the importance of proper drainage, the necessity for compaction, and appropriate repair strategies.

## Learning Objectives:

- Discuss the elements of a well-constructed road
- Understand how water affects roadways from the surface and in the subgrade, and understand the effects of poor drainage
- Recognize common pavement damage and discuss their possible causes and appropriate repair strategies
- Understand the importance of proper construction inspection
