

Instructor

Todd Eaton - VT Local Roads Technical Assistance & Training Specialist

Todd has nearly 20 years of experience in various disciplines of construction including 9+ years in heavy highway construction supervision, inspection, and design of maintenance projects and traffic safety plans. Safety inspection and compliance has always been his focus and expectation throughout Todd's career. He also holds several professional certifications including Northeast Transportation Technician Certification Program (NETTCP), American Traffic Safety Services Association (ATSSA), and Occupational Safety and Health Administration (OSHA).

Audience

- Road Crew
- Town Managers
- Selectboard Members
- Engineers
- Those involved in work zone traffic control and flagging

About

This workshop provides participants with the basic understanding of work zone safety and flagging. Upon completion of this course, participants will receive a Flagger certification card.

During VOSHA inspections of municipal work zone set-ups, proper signs and stands, Flaggers may be asked to produce their Flagger certification card.

Agenda

- ◇ Proper flagging techniques with safety as the top priority
- ◇ Proper use of cones, signals, barricades attire and flaggers
- ◇ Parts of typical work zone and how to deal with common problems

Participants will plan a work zone set-up after discussing a scenario pertinent to workshop site.
